Low Cost Prescription Drugs

Despite the advent of Medicare Part D, and certain state-run assistance programs such as EPIC (outlined above), there are still many seniors that cannot afford their medications. This is the reason why most manufacturers of prescription drugs aid with those who cannot afford their medications. A comprehensive list of these programs is provided by the Partnership for Prescription Assistance as well as the steps to follow to apply for assistance. For information on Patient Assistance programs visit:

<https://www.pparx.org/>

Another cost saving strategy is to make the switch to generic drugs:

The Food and Drug Administration says: "Generic drugs are important options that allow greater access to health care for all Americans. They are copies of brand-name drugs and are the same as those brand name drugs in dosage form, safety, strength, route of administration, quality, performance characteristics and intended use." Generic drugs cost about **50%-80%** less than their brand name equivalents. **** Please consult your physician before making the switch****

Another option for those with no insurance:

Obtain a prescription drug discount card. These cards, which should be free provide savings from 45%- 80% on your prescription drug costs and are ideal for those with no insurance. To obtain a free card go to:

<https://www.StuffSeniorsNeed.com/card>

The volunteers, known as Court Appointed Special Advocates (CASAs), are interested men and women from all walks of life, trained by EAC Network to work with program staff, children in care, and the courts. Each child has his or her case reviewed periodically by a Family Court judge. At the time of the case review, if the judge needs additional information, or would like an objective opinion on the child's placement and progress, the court will appoint a CASA volunteer. All appointments are made through the Nassau County Family Court Advocate Program, which then assigns volunteers based on availability, skills, and the needs of the particular case.

Tel: (516) 292-4186

Email: Andrea.ramos-topper@eac-network.org

<https://eac-network.org/supervised-visitation>

EAC - Nassau Supervised Visitation allows children to continue, rebuild, or establish a relationship with their non-custodial parent without being placed in the middle of their parents' conflict and/or other issues, which results in children having a better chance at being responsible citizens and developing healthy attachments, and allows custodial parents to have comfort knowing their children's interaction with the non-custodial parent is safe. Besides standard supervised visitation, SV also offers therapeutic and coached family visitations.

EAC - Nassau Enhanced Supervised Visitation (ESV) is offered to families involved with the Department of Social Services and/or the foster care system. In addition to providing supervised visits, ESV specifically focuses on enhancing parenting skills by providing assistance, encouragement, information, and coaching to parents during visits, family coaches engage and empower parents to be experts on their own children; they are encouraged to identify, understand, respond to their children's needs, and have fun with them.

EAC - Nassau Family Treatment Court Supervised Visitation (FTCSV) is by referrals only from Family Treatment Court in cases where parents have been found neglectful as a result of alcohol and/or substance abuse. Because the FTCSV office is located in Family Treatment Court, intakes are completed immediately after a judge makes the visitation mandate, and visits are able to be scheduled within a week. Rather than held at the SV facilities, FTCSV supervised visits take place either at the family's home or at a community/public location such as a library or restaurant. In a few rare cases, the Department of Social Services will host a supervised visit. Additionally, FTCSV offers monitored visits: rather than EAC Network staff acting as supervisor, staff personally check in with court-appointed supervisors who are conducting the supervised visits.

The legislation that created the Department of Financial Services, known as the Financial Services Law, was introduced as part of Governor Andrew M. Cuomo's 2011 budget. The Governor's purpose in consolidating these two agencies and creating the Department of Financial Services or DFS is to modernize regulation by allowing the agency to oversee a broader array of financial products and services, rather than the previous system of limiting regulation to services provided by only certain types of institutions. As of October 3, 2011, the New York State Banking Department and the New York State Insurance Department are abolished, and the functions and authority of both former agencies transferred to the New York State Department of Financial Services. The department supervises state- chartered banks, handles or refer problems and complaints about other types of financial institutions as well answer general questions about banking and consumer credit.

Elder Abuse is a hidden crime and takes on many forms that can include Physical abuse, Emotional abuse, Sexual abuse, Neglect and Financial exploitation in elder abuse cases the perpetrator is often well-known to the victim. The common profile of an offender is an adult child, grandchild, or other relative who is living with their aging parent or relative. Typically, these offenders are unemployed or underemployed, have mental health or substance abuse issues, and they rely on their older parent or relative for financial support and housing. Victims of elder abuse often do not want their loved ones arrested and prosecuted, but they want help for the offender and for the abuse to stop.

The LI-RAEN is one of seven Regional Adult Education Networks funded by the NYSED through federal Workforce Innovation and Opportunity Act (WIOA), Title II funding. The seven RAENS, in coordination with the NYSED Office of Adult Education Programs and Policy (AEPP) Unit, provide technical assistance to assist adult education programs in meeting statewide benchmarks on the National Reporting System's (NRS) core indicators.

The LI-RAEN serves adult literacy program needs throughout Nassau and Suffolk counties and works closely with other public service agencies (e.g., state and local Departments of Labor, local Departments of Social Services) within the local workforce development systems to address emerging, transitional, and incumbent workers' literacy needs.

Nassau County has been addressing the opioid crisis on multiple fronts, one of them is educating its residents on the use of Naloxone, also known by the trade name Narcan. Nassau County residents, first responders and human service staff learn how and when to administer the lifesaving antidote that can reverse the fatal effects of an Opioid overdose and save a person’s life. Our free Narcan trainings also offer community resources, speakers and information on the latest treatment approaches.

Nassau County Office of Mental Health, Chemical Dependency and Developmental Disabilities became certified as an Overdose Responder Program in late 2012, the first County Certified Program in the State, outside of New York City. Nassau County Office of Mental Health, Chemical Dependency & Developmental Disabilities Services has partnered with community agencies, colleges, local school districts, fire departments, libraries and religious organizations and has hosted more than 210 training events and has trained more than 9800 people on how to administer Narcan since its inception.

Naloxone Co-payment Assistance Program (N-CAP)

At participating pharmacies, individuals with prescription coverage as part of their health insurance plan can receive up to \$40 in co-payment assistance for the purchase of this lifesaving drug. NAR-ANON Family Groups

New York Region (mailing address)

Levittown Post Office, P.O. Box 293

180 Gardiners Avenue, Levittown, NY 11756

Hotline: (888) 333-9815

<https://www.nynaranon.org>

The NAR-ANON program helps those affected by someone else's addiction. As a Twelve-Step Program, they offer help by sharing their experience, strength and hope. The only requirement for membership is that there be a problem of addiction in a relation or friend. You learn to discover many of your efforts to control or change the situation you are in. It has been a great relief to learn more effective ways of coping with your situation, while at the same time gaining some peace of mind, hope, and help for a better way to live. You will hear others, who are going through similar problems, talk about how they cope and find recovery.

NAR-ANON can bring new insight about your attitudes, behavior and emotions. It can be the source for regaining your own sanity and well-being. You learn that addiction is a family disease, and you need recovery too.

There are no charges or obligations as NAR-ANON is a non-profit organization. The Hofstra Law Clinic provides certain types of legal services to individuals who are 150% above the poverty line. Students in the Robert W. Entenmann Veterans Law Clinic help veterans obtain disability (and thus, often, health care) benefits and apply for discharge upgrades.

More particularly, students may help veterans submit disability claims to the Department of Veterans Affairs, work on appeals of denied claims, and help veterans obtain increases in disability ratings, for cases in which increases are justified by a veteran's service record and health status. Students may also help veterans upgrade other-than-honorable discharges from the military so that these veterans become eligible for disability and health care benefits. Working alongside physicians, other clinicians and experienced attorneys, students help veterans with service-connected disabilities establish that their disabling conditions are service-connected.

The Clinic is part of **Starbucks' Military Mondays C** an innovative public-private partnership that engages community veterans in conversation and provides free legal counsel at nearby Starbucks locations.
